## **DETAILED ACTION**

### ***Drawings***

1. The drawings are objected to under 37 CFR 1.83(a). The drawings must show every feature of the invention specified in the claims. Therefore, the “pivot point” as set forth in claims 6-9 and 11 and the bar or strip as set forth in claim 10 must be shown or the feature(s) canceled from the claim(s). No new matter should be entered.

Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as “amended.” If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either “Replacement Sheet” or “New Sheet” pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

### ***Claim Objections***

2. Claims 8 and 9 are objected to because of the following informalities: in claims 8 and 9 “the attachment point” has no antecedent basis. Appropriate correction is required.

***Allowable Subject Matter***

3. Claims 6-11 are allowed.
4. The following is a statement of reasons for the indication of allowable subject matter: the prior art references of record fail to teach the additional limitations of the visor and chin guard functional such that dually the visor can move within an inside portion of the head protection part of the helmet and the chin guard can move within the visor.

***Conclusion***

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Note particularly, the similarly pivoting shield and chin guard of MacCoon.
6. This application is in condition for allowance except for the following formal matters:  
See paragraphs 1 and 2 above.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
